I would send Matias to the meeting, as he has been working with Domingo, and knows the economics.. While this will be a recall from his vacation, it is important, and I will manage it.Â Just need to get confirmation of the meeting to arrange his travel.

Legal is likely to be represented also. I strongly suggest somebody from Carabobo also be there.

All,

Yesterday I looked at a slide prepared by the Ministry on the WPT and frankly it does not look good to me (I'll try to reproduce it and send it out to you later) the point is that Ministry is waiting for a Domingo Garcia (DG) final input from the economic evaluation (IRR) standpoint on this tax to issued the Resolution. I today learned that DG was in Caracas already and call him to asked to meet us on these subject immediately, he told me next Wednesday 8:30 am we'll have the chance to explain our views on the subject.

On the things that I did not like from the slide is that there is the understanding that the impact of this new law is marginal and couple of slides have been put together to this respect, in my opinion they do not capture the real effects of the Law in particular projects (more like the 3rd slide from Floyd Johnson), again I'll try to reproduce the main slide.

Given the importance of this meeting I advice we show up with senior members of management and the necessary information to leave our formal saying with DG, I have spoken to him to have the Ministry on hold until he can be also heard.
